

Corporate Council Membership

The Alice Paul Center for Gender Justice's Corporate Council is a membership program designed to enhance your business' visibility and impact on women leaders across the region and beyond.

APC provides a platform to highlight your corporation's support for women's history and its influence on the next generation of civic and business leaders.

The Corporate Council doesn't only enhance your knowledge and network, it provides a corporate benefit for employees and offers a unique opportunity to deepen engagement with clients.
